## EMPLOYMENT

---

### **Founder, WhereBerry Inc.** **2011–2012**

- Startup aimed at making it easy to share and discover fun things to do with your friends.
- Sole founder, funded by **YCombinator** and Start Fund in Winter 2011.
- Also built FlixWithMe (Netflix queue sharing) and LogPulse (Javascript logging) apps.

### **Product Manager, Google Chrome** **2008–2010**

- Conceived and launched extension system and app gallery, leading to the creation of more than 10k extensions, many with several million users.
- Oversaw design and implementation of major frontend features including bookmark sync, autofill, translation, and spellchecking.

### **Product Designer, Google consumer UI review** **2008–2010**

- Reviewed designs by various teams before they presented at Marissa Mayer's weekly UI review. Collected and summarized Marissa's feedback.

### **Product Manager, Android** **2007–2008**

- Prioritized features leading up to the launch of the first Android device (T-Mobile G1).
- Responsible for core applications including Contacts, Mail and Calendar.

### **Product Manager, Google Reader** **2006–2007**

- Led major redesign in 2006, taking it from 50k active users to over 1M.
- Took product out of beta in 2007 by launching search and expanding internationally.

### **Software Engineer, Google** **2005–2006, 2010**

- Software engineer on AdWords and Google Checkout in 2005-2006.
- Software engineer on YouTube in 2010 (prior to quitting).

### **Web Designer, Document Systems AB** **Summer 2001**

- Designed and implemented Swedish website for office equipment wholesaler.
- Organized more than 150 products with a focus on usability.
